

Lucky Shopper Draw

The Lucky Shopper voucher draw permits market goers to win a cash prize to spend at the market

How does it work?

- The Lucky Shopper Draw QR Codes are distributed around the market including at some stalls.
- Market visitors can enter the Lucky Shopper Draw directly from their mobile phone by scanning the code.

There are 2 lucky shopper draws approximately 10.30am and 12.30pm.

The winner receives 2 x \$10 gift certificates. This is considered the same as cash for the purpose of purchases at the market including change for part value sales.

When the customer uses the gift certificate at any stall, the stallholder can redeem the value of the gift certificate by taking it to the Community Stall to receive the cash value.

The Customer

- When you visit our market, scan the Lucky Shopper QR Code located at various spots throughout the market.
- Complete the online entry form with your contact details on market day. You then go into the draw to win \$20 in gift certificates (2 x \$10) for spending at the market.
- The Lucky Shopper draw is held twice each market day at approximately 10.30am and 12.30 pm.
- The winner can use the gift certificates on the day or at any market for the following 12-months from the date of the gift certificate.

The Stallholder Lucky Draw

The Stallholders at each market go into a separate draw to win \$30 off their next stall fee. Each stallholder gets one entry and the draw is conducted by the committee at the conclusion of each market. The winner receives \$30 off their next stall fee.(i.e. the value of one standard site).

This ensures that every stallholder has an equal chance of winning no matter the number of sales they make on the day. The result is published on the Stallholder Facebook page.
